

# Vibe-code a website you can keep.

Prompt-driven building on an open-source foundation you control.

## PROBLEM

# Launch in minutes. Operate for years.

---

## DAY 1

# LAUNCH

Prompt → Generate  
→ Publish

## DAY 2 ONWARD

# OPERATE

Update → Secure  
→ Integrate → Grow

## AI compresses launch. Operations create lasting value.

# A website is not a prototype.

The hidden work begins after “Publish.”

01

## Content + search

Editorial workflows, structured content, SEO, redirects and archives.

02

## People + permissions

Owners, editors, contributors, approvals and access controls.

03

## Commerce + integrations

Payments, forms, analytics, CRM, email and business systems.

04

## Updates + governance

Maintenance, security, backups, revisions and accountable change.

**The demo is day one. Operations are every day after.**

# The foundation matters more than the prompt.

Both approaches use AI. They optimize for different jobs.

---

## APP-FIRST AI BUILDERS

### Lovable is a leading example

#### STARTS WITH

**A new Vite + React application**

#### OPTIMIZED FOR

**Fast greenfield apps and prototypes**

#### OWNERSHIP REALITY

Code can sync to GitHub; the AI editor remains SaaS.

## WORDPRESS + WPadmin.AI

### AI inside a living website

#### STARTS WITH

**Your site, content, plugins and workflows**

#### OPTIMIZED FOR

**Operating and evolving content-rich sites**

#### OWNERSHIP REALITY

The site, files and data stay in the WordPress hosting you choose.

**Choose the fastest tool for the job—and the right foundation for what comes next.**

# A whole website can start with one brief.

> Build a complete website  
for my consulting firm.

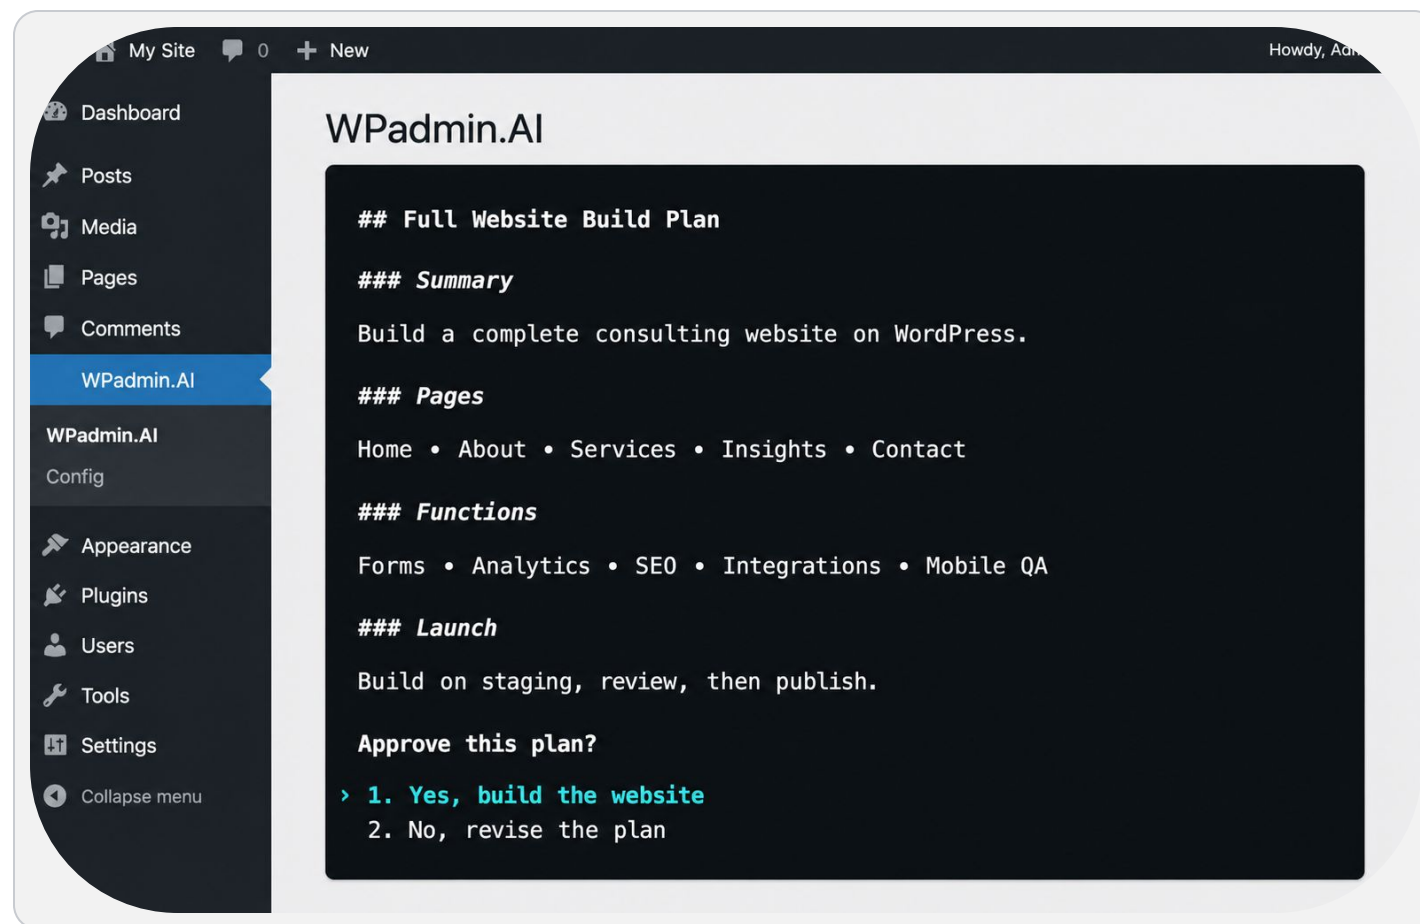

From structure and content to  
forms, SEO and launch.

## PAGES + CONTENT

Home, About, Services, Insights and  
Contact.

## FUNCTIONS + FINISH

Forms, analytics, mobile design,  
integrations and QA.

Illustrative plan-and-approve workflow inside WordPress

PROOF

# New interface. Proven foundation.

WPadmin.AI adds prompt-driven development to an open-source CMS with decades of operating history.

**43%+**

**of the web**

WordPress is the platform of choice for more than 43% of all sites.

**2003**

**open-source roots**

A GPL platform designed to be used, modified and extended.

**NASA**

**+ The White House**

Official public-sector sites highlighted in the WordPress Showcase.

**Vibe coding is the interface. WordPress is the infrastructure.**

## THE TAKEAWAY

# Vibe-code on ground you own.

WPadmin.AI brings prompting to a WordPress site you control.
